[Remember your 2019 tax return!](#)

IRS released guidance that extends the claims period for [health flexible spending arrangements](#) (FSA) and dependent care assistance programs.

On March 13, 2020, IRS announced, in [Notice 2020-18](#), both the payment and the filing deadline for any **Federal income taxes** (including self-employment tax) for individuals, corporations, estates, and trusts has been moved to July 15, 2020. This is automatic and does not require **the filing of an extension**. The 90-day extension includes both the balance due for 2019, as well as the Q1 2020 estimated tax payments.

Paychecks Protection Program (PPP) Information Sheet: Borrowers

The Paycheck Protection Program (“PPP”) authorizes up to \$349 billion in forgivable loans to small businesses to pay their employees during the COVID-19 crisis. All loan terms will be the same for everyone.

The loan amounts will be forgiven as long as:

- The loan proceeds are used to cover payroll costs, and most mortgage interest, rent, and utility costs over the 8 week period after the loan is made; and
- Employee and compensation levels are maintained.

Payroll costs are capped at \$100,000 on an annualized basis for each employee. Due to likely high subscription, it is anticipated that not more than 25 percent of the forgiven amount may be for non-payroll costs.

Loan payments will be deferred for 6 months. [Learn more about the program](#) and [download the application form](#).
